

# Are New Technologies an issue for society?

Clément CAUMES & Mehdi MTALSI-MERIMI

UFR des Sciences Versailles - M1 Informatique

Semestre 2

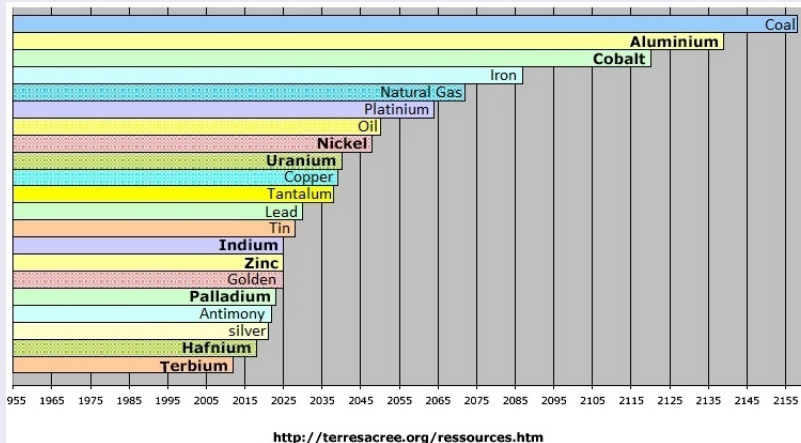

## Issues of resources

Increase of population, demands and productions induce :

- Resource overexploitation
- Extinction of rare animals and plant species

## Date of exhaustion of mineable resources

## Sustainable development = solution ?

- Development of the economy
- Development of the social aspect
- Preservation of the environment

## Emissions of fossil carbon since 1800

## Addiction of new technologies

- New technologies change the behaviour of young people
